INSPEM WEEKLY SEMINAR

26/2019

Date & Time

Friday, 19th July 2019 @ 3.15 pm

Venue

**Al-Farabi Seminar Room, Second Floor,
INSPEM**

Presenter

Mr. Ahmad Hazazi A. Sumadi

Postgraduate student, INSPEM

Topic

The Erasmus+ Programme: A Sojourn

Abstract

In this talk, I will share my experience during the mobility programme at Politecnico di Torino (PoliTo), sponsored by Erasmus+ scholarship. During the mobility period, I was based in two departments which are DISMA and DISAT and supervised by two Professors; i) Riccardo Adami as a main supervisor from DISMA and ii) Bianca Letizia Cerchiai as the co-supervisor from DISAT. My research project focused on group-theoretic and Lie algebraic approaches to quantum entanglement especially for the case of two qubits. I also explored and enjoyed the beauty of the ancient city of Turin.
