**Bi-Topic Seminars: Coded Table for Currency In Circulation by Denomination & Exploratory Data Analysis for Jeniang Monthly Rainfall 30 Years Data.**

## ABSTRACT

In this seminar, two useful tools in Exploratory Data Analysis will be presented, namely the smoothing and the coded table techniques. Although these tools may appear to be simple, they are powerful enough to extract information from data. This talk will also highlight the importance of colours and symbols used in presenting findings of any information.
