**Topic :PRISMA Statement (Part 2)**

## ABSTRACT

A systematic review is done based on the clearly formulated question. This formulated question assisted the researchers to use systematic and explicit method to identify, select and critically evaluate relevant research. Furthermore, it encourages researchers to collect and analyze data from the studies that are included in the review. PRISMA statement could be used to do rigorous and extensive systematics review. This presentation will cover details on PRISMA statement.
